Re: Public Act 696 of 2002

The Child Care Organization Act (Public Act 116 of 1973, as amended) provides the legal basis for regulation of child care organizations, including school age child care. Late last year, Public Act 696 of 2002 amended the Child Care Organization Act to allow facilities or programs for school-age children, operated at a school by a public school or by a person or entity with whom a public school contracts for services, to request an exemption from the regulatory requirements of the Act. The earliest effective date for an exemption is July 1, 2003.

To be eligible for an exemption:

- The program must be currently licensed or approved.
- The program must have been in operation and licensed or approved for a minimum of four years prior to the exemption request.
- During the four years preceding the exemption request, there must not have been substantial violations of the Act, or administrative rules.
- The school board or board of directors must have adopted a resolution supporting the application for exemption.

If you wish to apply for an exemption, please complete the attached application and return it, along with the adopted school board or board of directors' resolution to:
